

EDUCATION

PhD Computer Science; 4.0*University of Washington, advised by Yejin Choi*

Apr 2026

Seattle, WA

MS Computer Science; 4.0*Brigham Young University, advised by David Wingate*

Aug 2022

Provo, UT

Incomplete - left to pursue PhD

- GRE, 169 / 170 Quantitative (96th percentile), 165 / 170 Verbal (96th percentile)

BS Applied and Computational Mathematics; 3.9*Brigham Young University*

Apr 2021

Provo, UT

- ACT, 36 / 36 (99.8th percentile)

EXPERIENCE

Yejin Choi's Xlab, University of Washington - Research Assistant

Sep 2022 - Present

- Researching LLMs, commonsense reasoning, morality+AI, model distillation, and NLP for social good
- Spear-headed joint CS+Philosophy work on value pluralism

Allen Institute for AI - PhD Research Intern

June 2023 - Sep 2023

- Oral presentation at AAAI 2024. (paper)
- Project exploring AI system's ability to model pluralistic human values, mentored by Chandra Bhagavatula

Perception, Control, and Cognition Laboratory - Research Assistant

Apr 2020 - Sep 2022

- PNAS Paper exploring AI's potential to improve democratic discourse (co-first author, PNAS)
- Demonstrated the effectiveness of mutual information as a prompt selection criterion on 8 datasets and 7 models (first author, ACL)
- Engineered psychology-backed automatic rephrasing technique with GPT-3 to aid productivity of online conversations in collaboration with social scientists at Duke and BYU (in human trials)
- Controlled difficult soft robot in real-time by combining first-principles physics and deep learning (Frontiers in Robotics and AI)
- Contributed to open-source NLP data augmentation library (paper)

Enveda Biosciences - Data Science Intern

Aug 2022 - Sep 2022

- Improved mass spectrometry to chemical structure machine translation model's validation performance by 5% using backtranslation (currently being worked into a paper and deployment)

Double River Investments - Machine Learning Engineer

Jun 2020 - Aug 2021

- Informed live-traded quantitative investment model with transformer-based neural network, combining recent work by implementing and validating 5 research papers
- Deployed production pipeline so model could be used in real time by multi-million dollar hedge fund

Gray Falcon - Deep Learning Consultant

Dec 2019 - Apr 2020

- Sold NLP class project to company for \$10k by solving a crucial business need, saving thousands of monthly person-hours

Math Department, BYU - Competitive Coding Instructor

Jan 2020 - Apr 2020

- Taught 18 students three times a week by developing coursework from scratch
- Helped place several students at top jobs and internships by refining their coding interview skills

Computer Vision - Research Assistant

Feb 2019 - Dec 2019

- Awarded top prize in student research conference for work in pose correspondence
- Developed human-led, AI-assisted video annotation website to be used by MTurk workers

INVITED TALKS

IBM Research - AI and Pluralistic Human Values. *March 2024*

BuzzRobot - Aligning AI with Pluralistic Human Values. *May 2024* <https://www.youtube.com/watch?v=lEoBNBfNklI>

GRANTS AND AWARDS

Institute for Humane Studies Awarded Funding for ICML 2024 Conference Presentation. *June 2024*

SERVICE

Reviewer at AAAI'24, EMNLP'23, Neurips'23, EMNLP'22

Program Committee Member - Neurips 2023 MP2: AI meets moral philosophy and moral psychology

SKILLS

Python, PyTorch, Huggingface, Numpy, Pandas, SQL, Unix/Bash, Git, LaTeX, Docker

Some proficiency in Tensorflow, Julia, Java, C++, data scraping, and web development

RELEVANT PROJECTS

Solve Reinforcement Learning Environments: Used several DL/ML techniques to solve complex control environments from OpenAI's gym, including implementing Proximal Policy Optimization (PPO) from scratch

Deepfake Detector Facebook Competition: Implemented 3D-CNN and CNN/LSTM from scratch to classify video data as real or synthetic, achieving 83% validation accuracy ([link](#))

App Game Development: Independently programmed and released a game on the App Store for iPhone called Flux Ball (10,000+ downloads)
